

Status of BCDC Dredging Applications

The following information is being provided as a pilot program to test the usefulness to the applicant community. **Please note the following limitations:** The status of the application and projected Commission Hearing date, if applicable is provided. This information will be up-dated every two weeks, depending on staff time. This information is summary only and does not substitute for the Commission's official response to a permit application. Hearing dates may be subject to change. As always, BCDC staff is available to assist you. Special Note: A permit signed by the applicant must be returned to the Commission before any work is authorized and approval for each episode approval must be obtained by the permittee.
